

Gateway UPGRADE NORTH

Sandgate Road on-ramp closure

FACT SHEET

May 2018

New ways to travel

As part of the Gateway Upgrade North project, the Sandgate Road northbound on-ramp to the Gateway Motorway will be permanently closed to traffic in mid-2018.

Closure of the on-ramp will improve safety outcomes and reduce congestion for motorists travelling on the Gateway Motorway between Nudgee and Deagon.

Following the on-ramp closure, there will be several new travel routes for motorists.

How will I access the Gateway Motorway from Sandgate Road following the on-ramp closure?

Following the on-ramp closure, northbound traffic travelling along Sandgate Road will continue straight ahead north along Sandgate Road/Braun Street, and will access the Gateway Motorway via the Depot Road northbound on-ramp at Deagon.

Alternatively, motorists may choose to access the motorway earlier, such as:

- at Boondall - via Sandgate Road, Stanworth Road and the Bicentennial Road interchange
- at Nudgee – via Toombul Road, and the new Nudgee Road interchange.

How will I access Redcliffe from Sandgate Road following the on-ramp closure?

The timing of the Sandgate Road on-ramp closure will coincide with other significant traffic changes taking place as part of the Gateway Upgrade North project, including:

- opening of the new northbound Deagon Deviation overpass
- opening of the new northbound Deagon Deviation lanes via the Sandgate Road/Braun Street/Board Street/Deagon Deviation intersection.

Motorists travelling towards Redcliffe will no longer access the motorway, instead will continue travelling straight ahead along Sandgate Road/Braun Street, and access the new northbound Deagon Deviation lanes via the upgraded Depot Road/Braun Street/Board Street/Deagon Deviation intersection.

How will I access Redcliffe from the Gateway Motorway following the on-ramp closure?

Northbound motorists travelling on the Gateway Motorway, who wish to travel to Redcliffe, will take the new Deagon Deviation exit, using the new Deagon Deviation overpass. These motorists will travel on the overpass and on to the new Deagon Deviation northbound lanes, through to Redcliffe.

The existing northbound access to Deagon Deviation/Redcliffe via the Gateway Motorway will be permanently closed to coincide with the opening of the new Deagon Deviation overpass.
