

Gateway UPGRADE NORTH

Date: 2 May 2018
Ref no: CN0091B

Construction of heavy vehicle rest stop: Nudgee Service Centre

As part of the Gateway Upgrade North project, a new heavy vehicle rest stop is being constructed on the old motorway alignment near the Nudgee Service Centre (refer to the map overleaf).

The heavy vehicle rest stop includes:

- 25 parking bays suitable for a range of heavy vehicles, including trucks, caravans and buses
- outdoor table and chair facilities
- pedestrian walkways connecting to the existing Nudgee Service Centre carpark.

Construction timing:

Preliminary works for the rest stop began in October 2017, with major construction commencing in early 2018. **The facility is expected to open in late 2018.**

Associated roadworks:

To ensure local connectivity to the new heavy vehicle rest stop, roadworks are being undertaken along the Gateway Motorway on and off-ramps to Nudgee Road, and Nudgee Road between the Nudgee Service Centre and Childs Road.

These works include (refer to the map overleaf):

- construction of a permanent new northbound motorway off-ramp, with direct connection to the new heavy vehicle rest stop
- staged construction of a new permanent Nudgee Road northbound motorway on-ramp
- reconstruction of the Nudgee Road/Nudgee Service Centre intersection
- road widening and reconstruction works along Nudgee Road between the Nudgee Road northbound off-ramp and Childs Road, connecting to the new Nudgee Road bridge.

Access to and from the Nudgee Service Centre will be maintained during these works.

These roadworks are due for completion in late 2018.

Working hours:

A combination of day and night works are required to construct the heavy vehicle rest stop and to carry out the associated roadworks along the Nudgee Road on and off-ramps and Nudgee Road.

The project's working hours are:

- **Day works:** Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm.
- **Night works:** Monday to Friday, 7pm to 5am and Sunday, 4pm to 5am.

(Please note: motorway night works will begin from 7pm).

What to expect:

- Removal of some on-street parking along Nudgee Road between the Nudgee Road northbound off-ramp and Childs Road.
- Changed traffic conditions near the Nudgee Service Centre, including Nudgee Road and the motorway on and off-ramps, such as:
 - implementation of reduced speed limits
 - installation of traffic barriers, fencing and signage
 - establishment of construction site access points
 - shoulder/lane closures, temporary traffic changes and short-term traffic stoppages
 - presence of police/traffic controllers during working hours.
- Frequent heavy vehicle movements around the work sites.
- Construction traffic accessing work areas fitted with flashing lights and reversing beepers for safety reasons.
- Increased levels of noise, dust and vibration during some construction activities.
- Use of temporary lighting towers at night.
- Localised vegetation trimming and clearing along Nudgee Road, as required to facilitate works.
- Localised pedestrian/cyclist changes along Nudgee Road between the Nudgee Road northbound off-ramp and Childs Road.

All works are subject to weather and other construction conditions. We thank you for your ongoing patience and understanding during the project's works.
