

# Gateway UPGRADE NORTH

Date: 2 July 2018  
Ref no: CN0134

## WORKS UPDATE: Bracken Ridge Road/Barfoot Street intersection upgrade

**Works to upgrade the Bracken Ridge Road/Barfoot Street intersection and to modify the southbound motorway off-ramp to Bracken Ridge Road resumed in late June.**

Construction activities in these work areas will be ongoing until late 2018.

### Works include:

- Modification of the Bracken Ridge Road/Barfoot Street intersection to create a new, signalised intersection.
- Modification of the southbound Gateway Motorway off-ramp at Bracken Ridge Road (see map overleaf).

### Construction activities:

In early-to-mid July, the existing Bracken Ridge Road/Barfoot Street roundabout will be completely removed to allow for road widening activities in the intersection. Temporary traffic controls will be in place to ensure the intersection operates effectively while it is being upgraded.

Underground electrical conduits and service pits, which will service the new traffic lights, as well as underground drainage structures, will be installed across the intersection. **These works, which will be undertaken at night, will include concrete cutting and jackhammering. Increased noise levels can be expected.**

Asphalt resurfacing through the intersection will commence in early-to-mid July and continue until completion of the intersection upgrade in late 2018. Changed traffic conditions will be required to facilitate the asphalt resurfacing.

Modification of the existing southbound off-ramp to Bracken Ridge Road will also continue until late 2018 – see information box, right, regarding a scheduled weekend temporary closure of the off-ramp in early July.

### What to expect:

- Increased noise, dust and vibration levels during some construction activities.
- Changed traffic conditions and reduced speed limits around the work sites.
- Localised pedestrian/cyclist changes.
- Use of temporary lighting towers at night.
- Increased construction traffic accessing work areas and site compounds. These vehicles are fitted with flashing lights and reversing beepers, for safety reasons.

### Working hours:

While a combination of day and night works is required to complete these works, most of the work must be carried out at night when traffic volumes are lower and lane closures can be safely implemented.

The project's standard working hours at these locations are:

- **Day works:** Monday to Friday, 7am to 6pm and Saturday, 8am to 1pm.
- **Night works:** Monday to Friday, 7pm to 5am and Sunday, 5pm to 5am. Night works at the Bracken Ridge Road-Barfoot Street intersection will commence from 8pm.

All work dates are subject to weather and other construction conditions.

We thank you for your ongoing patience and understanding during the project's works.

### Traffic impacts:

#### Bracken Ridge Road southbound off-ramp temporary closure

A continuous weekend temporary closure of the Gateway Motorway southbound off-ramp to Bracken Ridge Road is scheduled from **7pm, Friday 6 July until 4am, Monday 9 July 2018\***.

A signed traffic diversion will be in place via the Bruce Highway/Gateway Arterial Road, Strathpine Road exit and Hoyland Street to access Bracken Ridge Road.

During the same weekend, changed traffic conditions will be in place at the Bracken Ridge Road/Barfoot Street intersection. The area will be reconfigured to a temporary t-intersection, with traffic reduced to one lane in each direction, operating under the direction of traffic control.

Local residents and road users are encouraged to regularly check the **QLDTraffic** website for updates regarding these traffic changes.

*\* Should wet weather delay these works, they will be rescheduled for the next available weekend.*

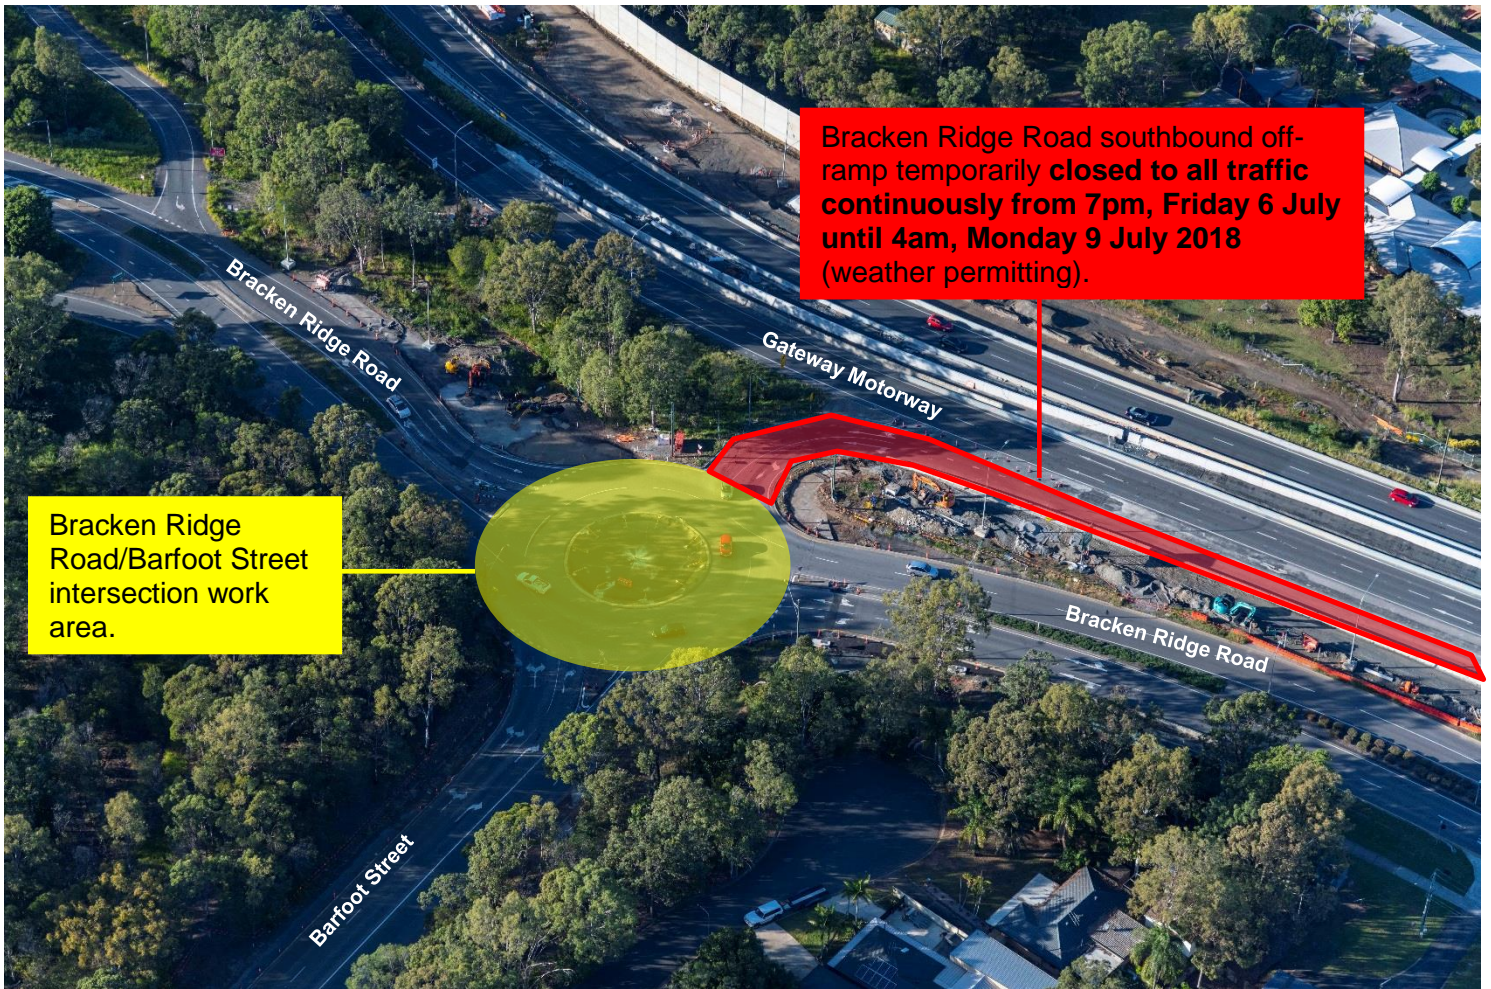

Australian Government

**BUILDING OUR FUTURE**

**Transurban**

Queensland Government

**Bracken Ridge Road southbound off-ramp temporarily closed to all traffic continuously from 7pm, Friday 6 July until 4am, Monday 9 July 2018 (weather permitting).**

**Bracken Ridge Road/Barfoot Street intersection work area.**

## Contact details

The project team is committed to working with the community to better understand your views and ensure the successful delivery of the Gateway Upgrade North project.
