

Gateway UPGRADE NORTH

Date: 15 January 2019
Ref no: CN0150

Project works update: Remaining works – early 2019

The Gateway Upgrade North project is now in its final stage, with remaining works being carried out project-wide during early 2019.

Newly installed Intelligent Transport Systems (ITS) equipment, including overhead gantry signs, is being commissioned and tested along the length of the motorway corridor.

An 80km/h reduced speed limit remains in place while final asphalt surfacing and other finishing works are carried out on the motorway network.

Key works to take place across the project during early 2019 are detailed below.

Nudgee:

- final asphalt surfacing, line marking and landscaping on Nudgee Road between the Gateway Motorway northbound off-ramp and Childs Road – and on eastern side of Nudgee Road Interchange outside Nudgee Golf Course
- commissioning the new traffic signals on Nudgee Road adjacent to the northbound motorway on-ramp
- landscaping and finishing works on the shared pathway between the Jim Soorley bikeway and Brisbane Entertainment Centre.

Boondall to Deagon:

- final works and opening of the full three motorway lanes southbound from Sandgate Road bridges to Boondall
- reinstatement of the Council bikeway between Boondall and North Boondall train stations
- final reinstatement works at the Queensland Rail North Boondall Train Station carpark on Sandgate Road, allowing the full carpark to reopen to commuters
- final asphalt surfacing, line marking and traffic signal commissioning at the Sandgate Road/Holroyd Street intersection
- installation of an overhead fauna crossing near the Bicentennial Road interchange
- landscaping and finishing works on the shared pathway between Brisbane Entertainment Centre and Depot Road.

Deagon to Bald Hills:

- final asphalt surfacing and line marking works on the Deagon Deviation interchange and on the Gateway Motorway between Depot Road and Wyampa Road
- installing the final sections of new noise barriers near Woodcroft Street/Quinlan Street, St John Fisher College and Bracken Ridge Road

- completing the final sections of shared pathway between Depot Road and the Barfoot Street pedestrian underpass
- installing final concrete kerb, guardrail, drainage and fencing adjacent to the motorway.

Depot Road:

- final asphalt surfacing, line marking and landscaping along Depot Road between the Braun Street/Board Street/Deagon Deviation intersection and the Gateway Motorway ramps.
- upgrading the footpath on the northern side of the road between the 7 Eleven Service Station and Taoist Temple
- installing concrete centre median islands, which will permanently restrict right-turning movements *from* Depot Road service lane to Depot Road eastbound, and *from* the Taoist Temple to Depot Road westbound
- remaining works between the 7 Eleven Service Station and Sandgate District State High School, including underground sewer and stormwater realignments, and installation of kerb, footpath and landscaping

What to expect:

- increased noise, dust, lighting and vibration levels during some construction activities
- frequent movement of large construction equipment and machinery and use of vehicles and machinery fitted with flashing lights and reversing beepers for safety reasons
- construction traffic frequently accessing work areas and site compounds
- changed traffic conditions, including reduced speed limits, short-term traffic stoppages, and temporary lane, road and ramp closures. Signed detours will be in place for motorists when closures are required.

Working hours:

A combination of day and night works will be required to complete construction activities at all work sites.

The project's standard working hours at these locations are:

- **Day works:** Monday to Friday, 7am to 6pm and Saturday, 8am to 5pm.
- **Night works:** Monday to Friday, 7pm to 5am and Sunday, 4pm to 5am.

At times, extended working hours may be approved in some locations, including on the motorway and local roads.

All works are subject to weather and construction conditions.
